15 Now

Tune: Sixteen Tons

Chorus:
Work for minimum wage and what do you get?
Another day older and deeper in debt.
The poverty level is more than you earn.
While the company bosses have money to burn!

You work hard for all your life.
And so do your children, your husband or wife.
You wait on tables, you sweep the floor.
No matter how hard ya work, you're poorer than poor

Chorus

We say 15 Now is the way to go.
We need it right now, no need to go slow.
Deducting tips and benefits will not do!
If you think that's fair, you don't have a clue.

Chorus

Big business is worried that we'll get this through,
So they started OneSeattle with their big business crew.
Now they're gettin' small businesses to front their lines
With misinformation and downright lies.

Chorus
