Climate Emergency

Tune: Y.M.C.A. (by The Village People)

Congress … we need you to re-a-lize *("congress" quick & punchy each time)*
We said, Congress, plee-eze open your eyes
We said, Congress, all the seas will soon rise
And massive fi-res will be raaa-ging

White House … there is no time to spare *("White House" quick & punchy each time)*
We said, White House, we all breathe the same air
We said, White House, now is time to repair
Our fragile ov-er hea-ted pla-net

Chorus: (CLAP 1, 2, 3)
We're facing one big climate em-er-gen-cy
one big climate em-er-gen-cy
We're facing one big climate em-er-gen-cy
one big cli-mate em-er-gen-cy

Judges … we don't need fossil fuels *("Judges" quick & punchy each time)*
We said, judges, you can write some new rules
We said, judges, let's give all of us tools
To safely ditch -excess – carbon

Neighbors … it is now up to you *("neighbors" quick & punchy each time)*
We said, neighbors, you know what you should do
We said, neighbors , save our water and air
It's com-mon sen-se and mo-r-ally fair

Chorus: (CLAP 1, 2, 3,)
We're facing one big climate em-er-gen-cy
one big cli-mate em-er-gen-cy
(Fade out) We're facing one big climate em-er-gen-cy
one big cli-mate em-er-gen-cy
