Float the Boat

Tune: Row / Row Your Boat

Float, float, float the boat,
Trickle down no more.
Dump Trump overboard
He's rotten to the core.

Float, float, float the boat,
We need health care for all.
When we're not ill, we all can work.
And wealth will rise, not fall.

Float, float, float the boat,
Vote The Green New Deal.
Save the earth and make good jobs
And help our country heal.

Float, float, float the boat,
Make the weakest strong.
Learn to paddle together again,
A land where all belong.

Float, float, float the boat,
Paddle hard upstream.
Make our nation whole once more.
Restore the American Dream.
