Our Favorite Things – Davis Gaggle Version

Tune: My Favorite Things

Clean air, clean wa-ter, a livable planet
Healthcare for all and a lot of mass transit
Enough food for everyone, that's what we sing
These are a few of our favorite things (stay down)

Union protection for ev-e-ry worker
Good public schools, and safe infrastructure
Funding for artists and scientists, too
These are a few of our favorite things (go up)

Chorus:
When the Prez tweets, something looney,
we know what we'll say
We stand by our neighbors no matter their race,
Their lifestyle or how they pray

Pence is a night-mare and Trump…he's just crazy
Mouthpieces Hucka-bee and Con-way are lazy
Alternate facts and fake news fill their day
Can't we just somehow make them go away? (stay down)

We have a challenge like none e'er before us
Saving our grandchildren's future and more thus
We will resist and persist till the end
Singing to reclaim the country again (go up)

CHORUS AGAIN
