

Separatists Stealing Our Data

Tune: Ode To Joy

See the Separatist Brigade now,

Marching with their USBs.

They got given all our data

With it they'll do as they please!

Separatists on secret servers

Analysing all our fates!

Now they have our birthdays, numbers,

Where we live, that won't be great!

They've now got a data kingdom,

hassling us is their reward.

Bet they'll set up secret updates

Thinking that they're spies at war!

Acting like they're cyber ninjas

Selling info if they want!

But there's one thing they're forgetting

Law is law and jail we want!

As we watch this crap unfolding

Like a sitcom on repeat!

Don't forget EA's defunding

Made it hard to catch these creeps!

What we see's illegal capers,

They think they're above the law

Turns out stealing private info's

Wrong, and now their house must fall!
