This Climate's Yours, Green New Deal's Mine

Tune: This Land Is Your Land

v. 1 This climate's yours
This climate's mine
Across all bound'ries
And border lines
In any weather
We work together
This climate depends on you and me.

v.2 As I go walking
The halls of Congress
At times it seems
Completely hopeless
The fossil lobby
Has so much money
(Still) we know it depends on you and me.

v.3 But the sun keeps shining
And the winds keep blowing
And Green New Deal foes
We keep opposing
For-ces are shifting
People are list'ning
The Green New Deal can be re-al-i-ty.

v.4 This climate's yours
This climate's mine
Across all bound'ries
And border lines
We'll work together
In any weather
This climate depends on you and me…..
This climate depends on you and me.
